

SLOTTED ANGLE

Get the right angle on every job

The all purpose construction kit

SLOTTED ANGLE

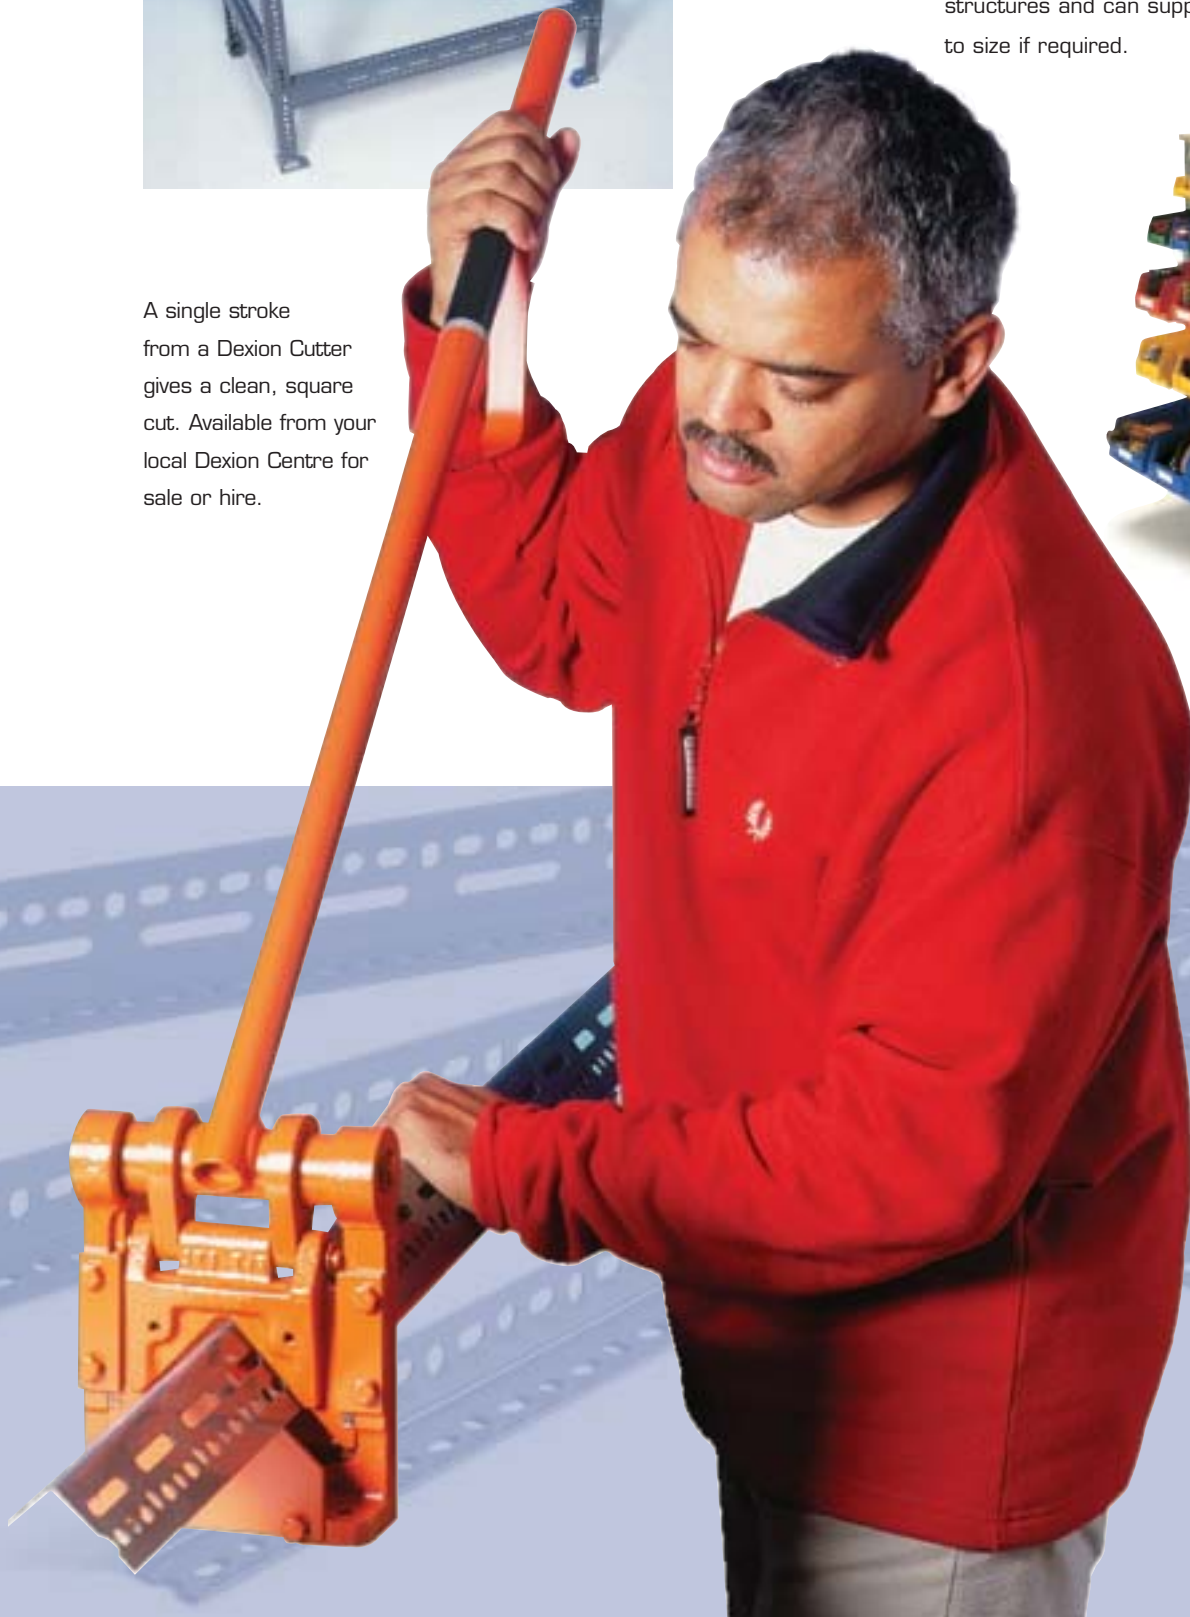

A single stroke from a Dexion Cutter gives a clean, square cut. Available from your local Dexion Centre for sale or hire.

Use plywood or chipboard to make a strong, made to measure bench. Add castors to turn it into a trolley. For tough, rigid shelving use Dexion Steel Shelves. Available in a range of sizes with a loading of 180kg giving up to 1000kg capacity in a single bay. Your local Dexion Centre can supply all you need to build easy-to-assemble structures and can supply the Angle cut to size if required.

Maxi Bins available in seven sizes and four brilliant colours.

Imagine a world without Dexion Slotted Angle

It's been around for fifty years so it is difficult to imagine a world without it.

Used worldwide for benches, display cabinets, safety screens, access platforms, fire barriers, security cages, jigs, test-rigs and 1001 other applications it's the indispensable, do everything construction system.

Dexion Slotted Angle is quickly and easily cut to size and bolted together to form frameworks which can be readily modified or completely dismantled and the components re-used.

Strong enough to last a lifetime and infinitely re-usable.

No wonder it's the world's Number 1.

Plan it... Cut

Start with a simple sketch. A detailed design is not necessary for most Slotted Angle structures.

Then cut the Angle to length. Each Angle has a cutting mark every 76mm (3") to make accurate cutting easy.

Get the right angle on every job

Strong, square structures are easy to build using Dexion Slotted Angle.

There are four sizes of Angle available in lengths up to 3810mm (12'6").

The slot pattern means that all four Angles can be used together in an installation and the slots are designed to give the maximum number of nut and bolt positions.

Your local Dexion Centre has all four Angles in stock and can advise on which is best for your job.

SLOTTED ANGLE

Building Tips

To make sure your structure is rigid, use Corner Plates on 140 or 160 Angle and two bolt fixings on 225 or 260 Angle. It's usually best to build the sides of a structure first and then join them with the horizontal members. Start by doing up nuts and bolts 'finger tight'. Then square up the structure and tighten the nuts and bolts using spanners.

Dexion Slotted Angle is the perfect everyday answer for simple rigid structures. If you need larger or more complicated structures, your local Dexion Centre has experienced designers and construction teams who can save you time and trouble in getting the right answers to your problems.

For free advice and details of our complete design and build package call us today.

Use it

Nuts and Bolts

To calculate amount of nuts and bolts needed, multiply number of corners or joints by 3.

Corner Plates

To ensure rigid structures when using 140 or 160 Angle, Corner Plates are fixed between the faces of the angles.

Base Plate

Use to prevent damage to floor and to fix Angle to the floor, wall or ceiling.

Use a Dexion Angle Cutter

Available for sale or hire from your local Dexion Centre.

Slotted Angle*

Four sizes cover all normal applications, use 140 or 160 for everyday structures. 225 or 260 for heavy industrial use. If in doubt consult your local Dexion Centre.

260 Angle

66mm x 45mm x 2.5mm

225 Angle

62mm x 41mm x 2mm

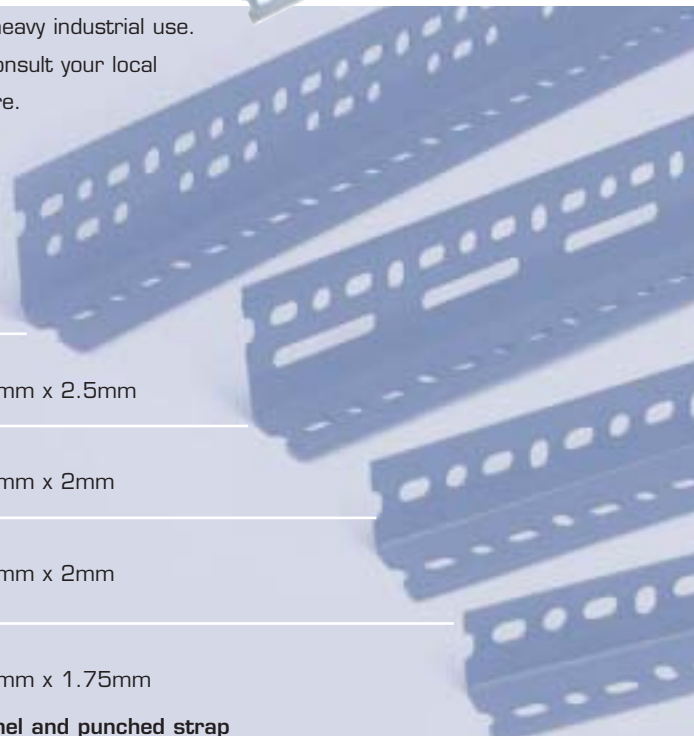

160 Angle

40mm x 40mm x 2mm

140 Angle

36mm x 36mm x 1.75mm

* 345 Channel and punched strap also available for specialist applications

Think outside the box

For information on efficient small parts handling solutions, contact your nearest Dexion specialists. From standard shelving to industrial paternosters, tower systems to horizontal carousels, our experts have the best solution for you.

Dexion can offer you numerous space-saving storage solutions. DeepStor P90 drive-in racking can increase your storage capacity by up to 90% compared to any other standard pallet racking.

Dexion solutions can be tailored to your precise logistical needs, vastly increasing your productivity. For greater convenience, all solutions are available from a single Dexion source - and from one of the world's largest product ranges.

The Dexion Group is a global leader in complete solutions for storage, archiving and filing.

Office filing systems

Partitioning concepts

Mobile Storage

Complete storage solutions

Efficient and cost-effective archiving systems
