Your new **all-in-one** cost & space saving office unit

Your new all-in-one cost & space saving office unit

# Spacefulness

What would you do if you could clear out your entire office interior and start all over again, without limitations? Hold that thought: you are now experiencing the boundless possibilities of Spacefulness. A whole new perspective for the shape and functionality of the office.

## Open your mind, free your office!

Bruynzeel Storage Systems delivers the promise of Spacefulness with a unique multifunctional and space-gaining solution, flexibly integrating all aspects of office storage. This could include a cloakroom, archives, a library, a kitchen and a meeting point, all wrapped up in a jaw-dropping design, intuitively controlled with just one finger.

Spacefulness is the new standard for gaining space, boosting profitability and creating the perfect conditions for true office innovation, heightening productivity and enhancing a sense of well-being.

# Reduce your costs and gain 50% more space

You need every square metre for your business activities. Forget traditional storage solutions that eat up valuable floor space – and embrace the concept of Spacefulness. This unique space-gaining storage concept requires only one access aisle, allowing you to gain 50% more space compared to traditional storage solutions. Since fewer square metres wasted will also mean lower costs for lighting, cleaning and security; smart office innovation will also give you a sustainable edge.

Traditional cabinets

Spacefulness

RFID Access

## Create security on all levels

You can now securely store even the most confidential information at the heart of your office, thanks to our intelligent electronic control system. PIN codes and RFID Access allow different levels of authorisation by assigning specific aisles to designated users or departments.

Maximum safety for the users is also guaranteed: should someone enter the aisle while the mobiles are moving, they will stop automatically.

# Increase your productivity through multifunctionality

What does your office really need? Let go of the traditional lay-out with all its empty workplaces and unused space. The key to boosting your productivity to unprecedented levels is to create activity-related work areas. A multifunctional Bruynzeel storage solution gives you the freedom to designate separate areas for quiet concentration, creative work, meetings and relaxation. A central storage unit places all the necessary information and materials within easy reach of these areas, making space for a clean desk and an open mind.

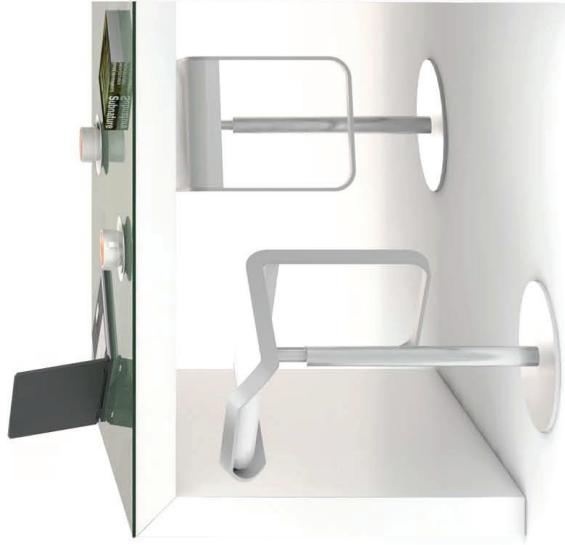

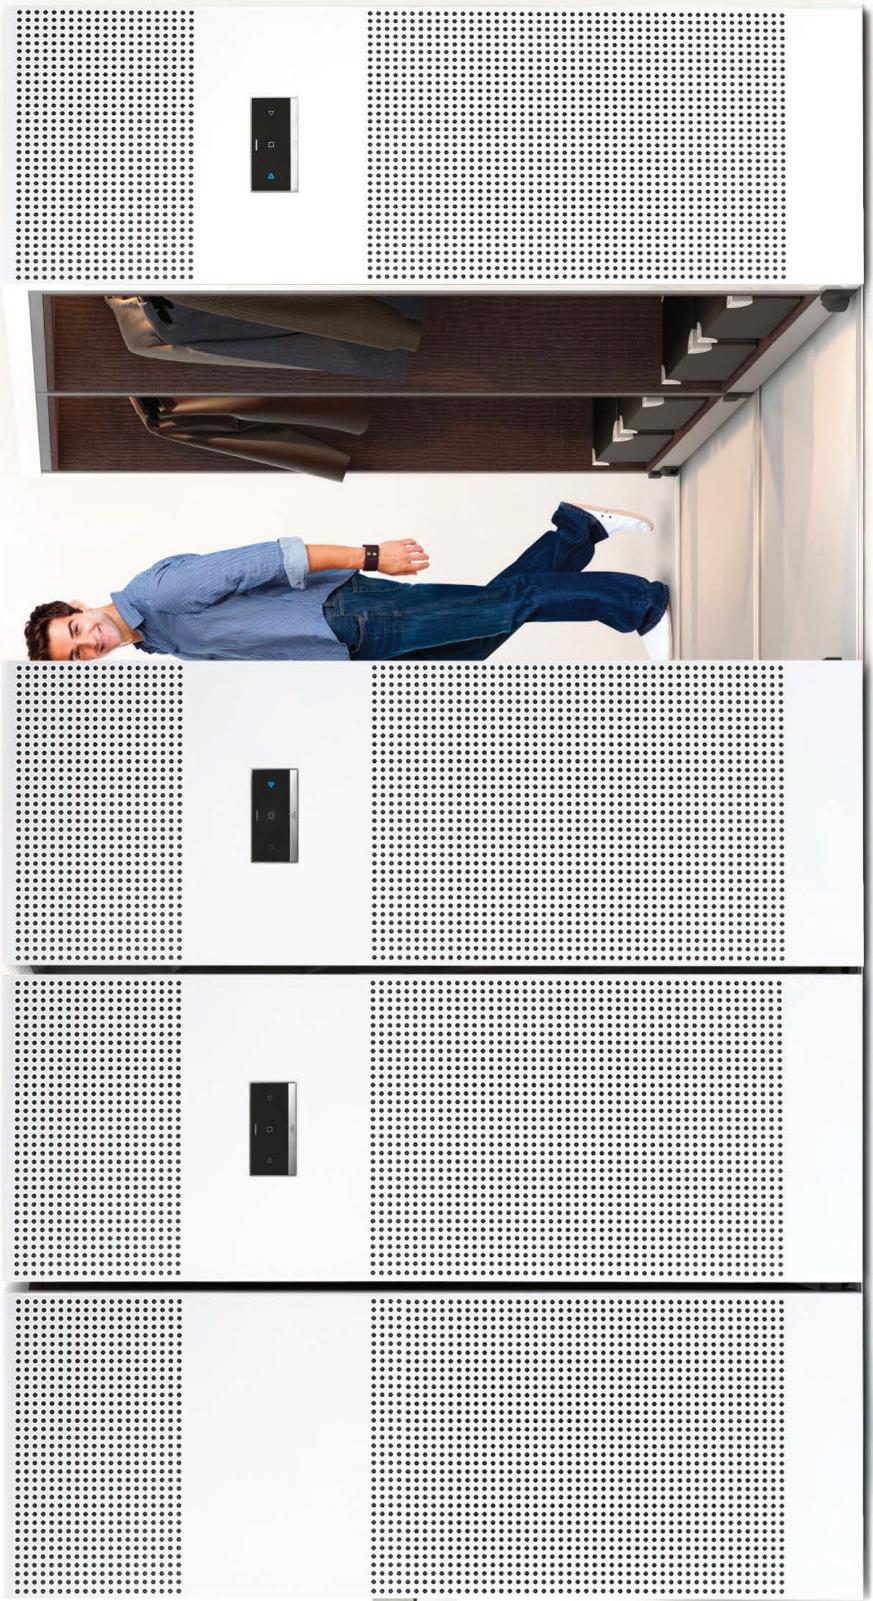

## Re-Group = Clean up

# Well-being boosts performance

Workplaces that are open plan and pleasing to the eye create a comfortable atmosphere that can boost performance. For this reason Bruynzeel storage solutions come in different heights, allowing you to create the right flow and lines of sight or transparency across the office. Bruynzeel storage solutions can be used to create pleasant and attractive visual or auditory barriers, stimulating people to interact and share ideas in common office spaces, while providing them with a secluded workplace where they can concentrate.

Your **totallyflexible** workplacecentre

# Choose the solution that expands as your business grows

Every successful business starts on a small scale. The same can be said about successful office innovation. You can gradually expand your Bruynzeel storage solution to meet your requirements. Start with one cabinet and extend the system as your company's increasing needs for storage grow or add any of the other functions as you please. Are you leasing office space? Simply take your Bruynzeel storage solution with you when you move to a new location.

**Start small, expand it  
as your business grows**

# Combine different functions

Anything is possible with a multifunctional and space-gaining unit that easily integrates all kinds of office storage solutions.

The addition of optional functions such as coffee machines or lockers and kitchen, discussion or presentation areas will make your Bruynzeel solution the central point of your office and preferred meeting place for your staff.

## Design your own unit

The possibilities are virtually endless. We are always interested to hear your ideas and suggestions for suitable additional functions.

Archive  
unit

A slim archive in your office. Closed when it's not in use, but able to open up for all the important information you need with a touch of a button. Now, that's the very picture of next-generation storage.

Library  
unit

The library unit is ideal for all the magazines, journals, books and brochure that keep your staff abreast of the latest developments. Now you can store and display them inviting and allow everyone to browse through them.

## Cloakroom unit

- A traditional coat stand always looks messy and a bit untidy.
- The cloakroom unit is a compact and elegant solution to keep coats within reach, but out of sight.

Locker  
unit

Extend the system with lockers for the storage of private belongings. The lockers are also a convenient way to securely lock away items such as personal papers, ideal for offices with hot desks.

Presentation  
unit

Here's a place where everyone loves to gather. Why not use it as a presentation unit? Ideal for short meetings. You can add a whiteboard or use the unit itself as the writing surface.

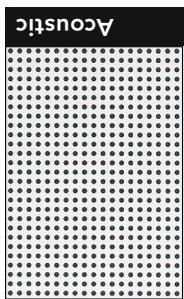

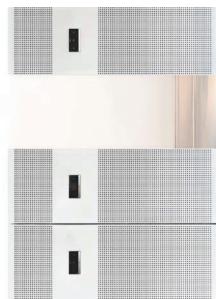

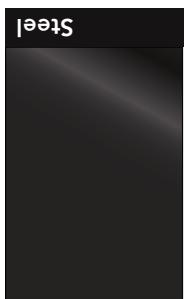

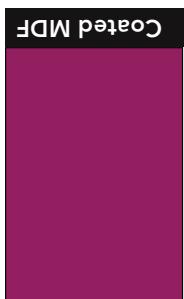

Kitchen  
unit

A kitchen unit that's always clean and well-organised, where your staff can brew coffee, grab a sandwich or a cold drink and have a chat without having to leave the workplace. This may very well turn out to be the creative heart of your business.

# The finish that suits your business

Your storage solution can be the highlight of your office, or subtly blend in with its stylish design. Simply choose the material of your preference from our extensive materials portfolio. For the most accurate idea of what's possible we recommend arranging a meeting and talking to us. We can inform you about the possibilities of our made-to-measure graphics, which will allow you to create a surface with the image of your choice, displaying your corporate logo or any other design to suit your office environment.

# The colourful storage chameleon

Really get the energy flowing by adding bright, positive colours to your office! Or go for a stylish look in black, white or both. To make things easy we've handpicked our most popular colours and wood decors for you. If you have any special wishes, please let us know. We'll turn your storage chameleon into any RAL colour you want: your corporate colours, perhaps?

# Let us organise your space

In a world where space is becoming a scarce asset, we dedicate ourselves to getting the most out of the available space in every way: to make your work easier and offer you the peace of mind you deserve.

## Let's create new ideas together

We believe in the power of partnership, working closely together with interior designers, office innovators and customers, such as Adecco, Bosch, Deloitte, E.on, Kellogg and Siemens. Spacefulness can also help you with smart, space-gaining solutions and is always part of a bigger picture. We bring you multifunctionality and flexibility, for whatever way you want to work.

With our own Research and Development department and an experienced customer team, we are able to design and adapt our products to every need. Choosing Bruynzeel also means quality and sustainability are guaranteed. Our factory in the Netherlands has been awarded ISO 9001 and ISO 14001 certification.
