## Description

An ideal shelving system with an unlimited number of uses.

Suitable for commercial and domestic use the pre-galvanised finish provides a protective coating and gives a modern appearance.

With an individual shelf capacity of 50kgs UDL (uniformly distributed load) this provides a total of 250Kgs load per bay. This means that the shelves are ideal for most storage solutions.

The system comes complete with 5 shelf levels and a single piece upright to ensure rigidity. No cross bracing is necessary due the ingeniously designed corner plates improving accessibility to each level.

Comprehensive instructions are included in each pack and we even provide the spanners!
